

**George A. McDonald**

Candidate for Sheriff in Democratic Primaries

If the voters of Maricopa county, irrespective of party, were to assume the responsibility of selecting a man to fill the office of sheriff, and qualification was the measuring stick to be employed, The Herald believes, from the candidates announced, that George A. McDonald would receive a large majority of the votes cast.

McDonald is not only the possessor of every requisite qualification, but is a very likable gentleman and one in whom full confidence can be imposed. The methods he has employed in the conduct of the business of the treasurer's office have met with the hearty approval of the taxpayers in general; and it was at the request of the taxpayers, republicans and democrats alike, that he consented to enter the contest for sheriff. If George McDonald receives the nomination and is elected to the office of sheriff, and that now seems a foregone conclusion, he will establish a new record in the administration of that important part of the county's business that will brand him at the close of his term as one of the best peace officers Maricopa county has ever had.—State Herald, a Republican Newspaper.
